

# APIs: a new way of communicating with EUIPO

Tuesday 25 April 2023  
10.00 to 11.00 (CEST)

Speakers:

Jordi BALAGUER - Digital Transformation Department, EUIPO  
José VILLUENDAS - Digital Transformation Department, EUIPO

## Questions and answers – APIs: a new way of communicating with the EUIPO

In the API portal it says that we are following open standards. Does that mean that it can interact with all common API standards used by our stakeholders, like IIIF, OAI-PMH, Dublin Core, MARC, METS, etc?

Unfortunately, we are talking about other kinds of standards.

The standards we are referring to are related to:

- APIs definitions: OpenAPI
- Schemas definitions: JSON
- security: JWT, OAuth2 ...
- WIPO: ST.90
- error format: [RFC 7807: Problem Details for HTTP APIs \(rfc-editor.org\)](https://rfc-editor.org/rfc/rfc7807/)
- ...

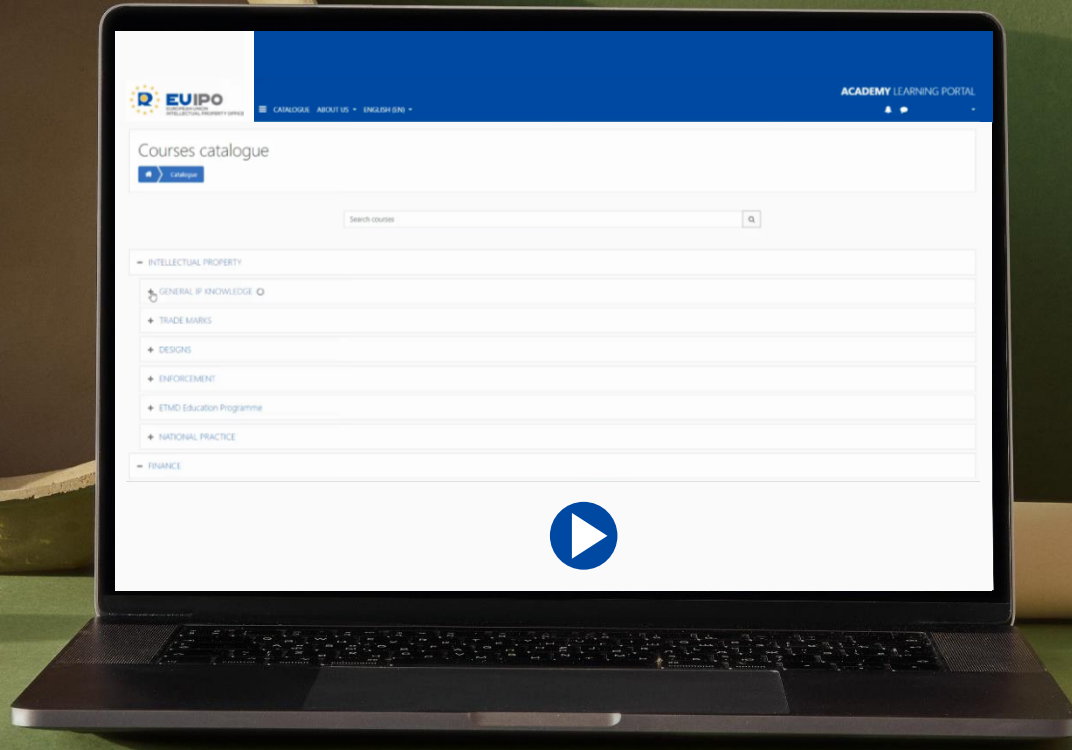

## Questions and answers – APIs: a new way of communicating with the EUIPO

### When can we expect the new API ‘communication’ feature to be operative?

Even though we don’t have a specific date for this feature, this is definitely an API product that we have on our roadmap.

Right now we are in the process of redesigning this functionality. The objective is to improve the user experience during their interactions with the Office and of course it will be built on APIs that we will make public at some point.
