The evidence to be provided by the applicant in support of a priority claim may consist of less than what is required under Article 4(1) EUTMR, provided that the information required is available to the Office from other sources, such as the website of a central industrial property office of a State party to the Paris Convention for the Protection of Industrial Property or to the Agreement establishing the World Trade Organization.

**Article 2**

Where priority is claimed, and where the documents referred to in Article 35(1) EUTMR have not already been submitted by the applicant, the Office will verify of its own motion whether the required information on the country, the file number, the filing date of the previous application, the name of the applicant or proprietor, the representation of the mark and the list of goods and services of the earlier trade mark the priority of which is claimed is available on the website of the central industrial property office of the State in or for which that earlier trade mark application is claimed to have been filed.

2. Where the required information is available on such a website in any of the languages of the European Union, the Office will make a note to this effect in the file of the European Union trade mark application. Otherwise, the Office will request the applicant to remedy the deficiency pursuant to Article 41(2) EUTMR by submitting documents in support of the claim.

**Article 3**

2. Where the required information is available on such a website, the Office will make a note to this effect in the file of the trade mark application or registration. Otherwise, the Office will request the applicant to remedy the deficiency pursuant to Articles 40(3), 41(2), 191(4) and 192(4) EUTMR by submitting the documents in support of the claim referred to in Articles 39(2), 40(2), 191(2) and 192(3) EUTMR.
