  15.1 Amendments to the representation of the mark ........................................... 55

16 Conversion .......................................................................................................... 57
1 Introduction

Every European Union trade mark (EUTM) application must abide by certain formality rules. The purpose of these Guidelines is to lay down Office practice in relation to those rules.

2 Filing of Applications

2.1 Applicants

Article 5 EUTMR

Any natural or legal person, including authorities established under public law, may apply for an EUTM, irrespective of their nationality or domicile.

2.2 Where a European Union trade mark application can be filed

Article 30(1) and Article 100 EUTMR
Article 63(1) EUTMDR
Decision No EX-17-4 of the Executive Director concerning communication by electronic means

Applications for an EUTM can only be filed directly with the Office.

EUTM applications may be filed electronically, by post or by a private delivery service. Applications for an EUTM cannot be filed by fax; any EUTM application submitted by fax as of 01/01/2018 will be deemed not to have been received (For more information, please refer to the Guidelines, Part A, General Rules, Section 1, Means of Communication, Time Limits). The Office offers the possibility of an accelerated procedure known as ‘Fast Track’ for applicants who file through the Office’s User Area (for more details please check the Office’s website).

3 The Fees

Article 31(2), Article 32, Article 41(5) and Articles 179 and 180 and Annex I EUTMR
Decision No EX-17-7 of the Executive Director of the Office concerning methods of payment of fees and charges and determining the insignificant amount of fees and charges
### 3.1 Fees in general

For the application of an EUTM the following fees are applicable:

<table>
<thead>
<tr>
<th>Trade Mark</th>
<th>Basic Fee (including one class)</th>
<th>Fee for a second class</th>
<th>Fee for each additional class</th>
</tr>
</thead>
<tbody>
<tr>
<td>Individual mark</td>
<td>EUR 1 000</td>
<td>EUR 50</td>
<td>EUR 150</td>
</tr>
<tr>
<td>Individual mark filed electronically</td>
<td>EUR 850</td>
<td>EUR 50</td>
<td>EUR 150</td>
</tr>
<tr>
<td>Collective mark</td>
<td>EUR 1 800</td>
<td>EUR 50</td>
<td>EUR 150</td>
</tr>
<tr>
<td>Collective mark filed electronically</td>
<td>EUR 1 500</td>
<td>EUR 50</td>
<td>EUR 150</td>
</tr>
<tr>
<td>Certification mark</td>
<td>EUR 1 800</td>
<td>EUR 50</td>
<td>EUR 150</td>
</tr>
<tr>
<td>Certification mark filed electronically</td>
<td>EUR 1 500</td>
<td>EUR 50</td>
<td>EUR 150</td>
</tr>
</tbody>
</table>

The fee must be paid in euros. Payments made in other currencies are not valid.

For more information on fees, see the Guidelines, Part A, General Rules, Section 3, Payment of Fees, Costs and Charges.

### 3.2 Basic fee deficiency

If the basic fee is not paid within 1 month of the date the Office received the application, the provisional filing date will be lost (see paragraph 4 below, Filing Date).

However, the filing date can be maintained if evidence is submitted to the Office that the person who made the payment (a) duly gave an order within the relevant period to a banking establishment to transfer the amount of the payment, and (b) paid a surcharge of 10% of the total amount due (up to a maximum of EUR 200).

The surcharge will not be due if the person submits proof that the payment was initiated more than 10 days before expiry of the 1-month time limit.

### 3.3 Class fee deficiency

Where the application covers more than one class of goods and/or services, an additional class fee is payable for each additional class.

- Where the fee payment made or the amount covered by the current account is less than the total sum of fees due for the classes selected in the application form, a deficiency letter will be issued, setting a 2-month time limit for payment. If payment is not received within the time limit specified, the application will be deemed to be withdrawn for the classes not covered by the fee paid. In the absence of other criteria to determine which classes are intended to be covered by the amount paid, the Office will take the classes in the order of the classification (starting with the lowest).

- Where additional class fees become payable following the rectification of a classification deficiency, a deficiency letter will be issued, setting a 2-month time
limit for payment. If payment is not received within the time limit specified, the application will be deemed to have been withdrawn for those classes resulting from the reclassification not covered by the fees actually paid. In the absence of other criteria to determine which classes are intended to be covered by the amount paid, the Office will take the classes in the order of the classification (starting with the lowest).

3.4 Fee refunds upon withdrawal

On withdrawal of the EUTM application, the application fee (basic and class fees) will only be refunded in certain circumstances.

For more information on this, see the Guidelines, Part A, General Rules, Section 3, Payment of Fees, Costs and Charges.

4 Filing Date

Articles 31, 32 and 41 EUTMR

4.1 Filing date requirements

A filing date is accorded where the application fulfils the following requirements:

- the application fee has been paid;
- the application is a request for the registration of an EUTM;
- the application contains information to identify the applicant;
- the application contains a representation of the trade mark;
- the application contains a list of goods/services.

If any of the above requirements are not met, a deficiency letter will be sent, requesting that the applicant submit the missing item within 2 months of the notification of the deficiency letter. This time limit is not extendable. If the deficiency is not remedied, the EUTM application will not be treated as an application for an EUTM ("deemed not filed") and all fees already paid will be reimbursed. If the missing information is submitted within the time limit set in the deficiency letter, the filing date will be changed to the date on which all mandatory information is complete, including the payment.

4.1.1 Fees

Articles 31(2) and 41(3) and (5) EUTMR

The basic fee and, where appropriate, class fees, must be paid within 1 month of the filing of the application. Where the fee is not paid within 1 month the Office will issue a deficiency letter (see paragraph 3.2 above).
4.1.2 Request

The application must contain a request for the registration of an EUTM.

It is strongly recommended that the EUTM application is filed using the Office’s e-filing form, available in the official languages of the European Union.

4.1.3 Applicant

The application must contain information identifying the applicant, specifically the name and address of the applicant and the country in which it is domiciled or has its seat or an establishment. If the applicant has previously been allocated an ID number by the Office, it is sufficient to indicate that ID number and the applicant’s name.

4.1.4 Representation of the mark

The application must contain a representation of the mark in accordance with Article 3 EUTMIR. For further information on the different types of marks, please see paragraph 9 below.

4.1.5 List of goods and services

In order for a filing date to be accorded, there must be a list of goods and services. This list must comply with Article 33 EUTMR.

To build their list of goods and services, applicants can select pre-approved terms from the Harmonised Database, which will be automatically accepted for classification purposes. Using these pre-approved terms will facilitate a smoother trade mark registration process.

For applications filed electronically, please see also paragraph 5.2 below.
4.2 Filing date receipt

4.2.1 Applications filed through the Office’s User Area

For EUTM applications filed through the Office’s User Area, the system immediately issues an automatic electronic filing receipt, which contains the provisional filing date. The applicant should keep this receipt.

4.2.2 Applications filed by other means

When an application is received other than through the Office’s User Area, a provisional filing date is accorded and the Office issues a receipt with this filing date. The filing date will be considered the date of receipt if the application fulfils the filing date requirements.

5 Goods and Services

5.1 Classification

Article 33(1) to (6) EUTMR

Every EUTM application must contain a list of goods and services as a condition for being accorded a filing date (see paragraph 4.1.5 above).

The list must be classified in accordance with the Nice Agreement.

The scope of protection defined by the original list of goods and services cannot be extended. If an applicant wants to protect additional goods or services after filing, a new application must be filed.

For further information on the classification of goods and services, please refer to the Guidelines, Part B, Examination, Section 3, Classification.

5.2 Specific formality deficiency for e-filing

Article 31(3), Article 31(1)(c) and Articles 41 and 100 EUTMR

Decision No EX-17-4 of the Executive Director of the Office concerning communication by electronic means

E-filing applications are subject to decision No EX-17-4 of the Executive Director of the Office concerning communication by electronic means and the Conditions of Use of the User Area.

The list of goods and services must be entered in the text fields provided for that purpose.

Where the list of goods and services is filed as an attachment to an e-filing application, or is filed separately, the application will not be considered as having been filed by
electronic means and the corresponding fee for applications not filed by electronic means will apply.

In such cases the Office will issue a deficiency letter, requesting payment of the difference between the reduced basic fee for applications filed by electronic means and the standard basic fee, that is to say, EUR 150 (EUR 300 for collective marks and certification marks).

If the deficiency is not remedied within the period set by the Office in its notification, the application will be deemed to have been withdrawn for the goods and services that were filed as an attachment to the application form or separately. If no goods and services are entered in the text fields provided, and the deficiency is not remedied, the application will be refused.

6 Languages/Translations

| Articles 146 and 147 EUTMR |
| Article 2(1)(j) EUTMR |
| Communication No 5/97 of the President of the Office concerning translations of applications and their examination |

An EUTM application may be filed in any of the official languages of the European Union. A second language must be indicated on the application form, which must be one of the five languages of the Office, namely English, French, German, Italian or Spanish.

A different language version of the application form from the language chosen as the first language may be used. However, the application form must be completed in that first language, including the list of goods and services and, where appropriate, the mark description.

6.1 First and second languages

All information on the application form must be in the first language; otherwise, a deficiency letter is sent. If the deficiency is not remedied within 2 months, the application will be rejected.

The second language serves as a potential language for opposition and cancellation proceedings. The second language must be different from the language selected as the first language. Under no circumstances can the choice of first and second language be changed once filed.

When filing the application, the applicant may choose to submit a translation into the second language of the list of goods and services and, where relevant, of any mark description. However, such translation is not necessary if the list of goods and services is made up of terms that originate from the Harmonised Database. Where such a translation is submitted on its own motion, the applicant is responsible for ensuring that the translation corresponds to the first language. It is very important for the applicant to ensure the accuracy of the translation as, in particular, the translation submitted by the applicant may be used as the basis for the translation of the application into all the remaining languages of the European Union (see paragraph 6.3, Reference language for translations, below). In the case of any discrepancy, the language version that
prevails depends on whether the first language is one of the five Office languages or not. If the first language of the application is one of the five Office languages, the first language version prevails. If the first language of the application is not one of the five Office languages, the second language prevails.

6.2 The correspondence language

The correspondence language is the language used in correspondence between the Office and the applicant in examination proceedings until registration of the mark.

If the language that the applicant has selected as the first language is one of the five languages of the Office, then this will be used as the correspondence language.

Only where the language selected as the first language is not one of the five Office languages can the applicant indicate that it wants the correspondence language to be the second language. This request can be made on the application form by ticking the relevant box or can be requested later, either by explicit request, or implicitly by sending a communication to the Office in the second language. However, such a request will be refused where the Office has already issued a deficiency or objection letter in the first language.

In cases where the applicant selects one of the five Office languages as the first language but then indicates that the second language is to be the correspondence language, the Office will change the correspondence language to the first language and inform the applicant.

<table>
<thead>
<tr>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>First language selected</strong></td>
</tr>
<tr>
<td>French</td>
</tr>
</tbody>
</table>

The correspondence language will be changed to French.

For more information on languages, please refer to the Guidelines, Part A, General Rules, Section 4, Language of Proceedings.

6.3 Reference language for translations

The list of goods and services is translated into the official languages of the EU. The source language for translations is defined as the reference language. If the first language of the application is one of the five Office languages, it will always be the reference language.

If the first language of the application is not one of the five Office languages and the applicant has submitted a translation of the goods and services in the second language, the reference language will be the second language. If no translation is submitted, the first language will be the reference language.

6.4 Translation of mark descriptions

If a translation of goods and services is supplied in the second language, the Office will check that any description submitted (where appropriate) has also been translated.

---

Guidelines for Examination in the Office, Part B, Examination

Page 11

FINAL VERSION 1.0 01/10/2017
the applicant has only submitted a partial translation of the goods and services and/or of the mark description, a deficiency letter will be sent, requesting that the additional translations be submitted within 2 months from notification of the deficiency. If the applicant fails to submit the omitted translations, then all translations submitted by the applicant will be disregarded and the Office will proceed on the basis of the first language as if no translation had been submitted. The Office will not check the accuracy of the translation.

Before requesting translation of an application, ‘non-translatable elements’, for instance colour codes, will be identified as such by putting them into inverted commas (“”), as agreed as a formatting rule with the Translation Centre for the Bodies of the European Union (CdT).

Example:

Where the (acceptable) mark description refers to a verbal element of the mark, this element should not be translated:

<table>
<thead>
<tr>
<th>Mark description</th>
<th>Mark</th>
</tr>
</thead>
<tbody>
<tr>
<td>EUTM 14 103 634</td>
<td><img src="image1.png" alt="Tide logo" /></td>
</tr>
<tr>
<td>This is a motion mark in colour. It consists of eight pictures, sequencing the following movement: The “Tide” brand logo appears from the left-hand side with increasing speed, leaving behind it a white swoosh, until it stops when it reaches the right-hand side of the screen. Because of the movement and speed, the logo is blurred until it stops, at which point it appears well defined. The whole movement lasts 2.5 seconds.</td>
<td></td>
</tr>
<tr>
<td>EUTM 15 922 883</td>
<td><img src="image2.png" alt="CHUBB sequence" /></td>
</tr>
<tr>
<td>This is a motion trade mark in colour. The trade mark consists of the word “CHUBB” displayed in a series of colours. The series consists of the following order of colours: grey, purple, green, yellow, red, turquoise, orange, blue and pink. The word “CHUBB” is displayed in each of the colours in the series in turn. Each colour is displayed for approximately 10 seconds. When a sequence of the word “CHUBB” in the colours grey, purple, green, yellow, red, turquoise, orange, blue and pink has been completed, the sequence starts again from the beginning, with the word “CHUBB” being displayed first in the colour grey, as the first colour of the series, and then in each of the colours in the series in the same order as before. Again each colour is displayed for approximately 10 seconds.</td>
<td></td>
</tr>
</tbody>
</table>
6.5 Restriction of goods and services

Articles 49(2) and 146(6)(a) EUTMR

For information on the restriction of goods and services and languages, see the Guidelines, Part B, Examination, Section 1, Proceedings, paragraph 5.2.

7 Owner, Representative and Address for Correspondence

Articles 3, 5, 55, 119 and 120 EUTMR
Article 74 EUTMDR
Article 2(1)(b) and (e) EUTMIR

7.1 Applicant

Any natural or legal person, including authorities established under public law (e.g. a university), may be the proprietor of an EUTM. Filings in the name of a legal entity in the process of foundation will be accepted.

In an EUTM application, the applicant must state its name, address and the country in which it is domiciled or has its seat or establishment. If the applicant has been given an ID number by the Office in a previous case, it will be sufficient to indicate that number together with the name of the applicant.

The Office strongly recommends indicating the state of incorporation for companies based in the United States of America, where applicable, in order to differentiate clearly between different owners in its database. Names of natural persons must be indicated by the person’s family name and given name(s). The names of legal entities must be given in full and only their legal forms may be abbreviated, in the customary manner, for example, PLC, S.A. If the legal form is not specified or is incorrectly indicated, a deficiency letter requesting this information will be issued. If the legal form is still not given or not correctly given, the application will be rejected. The company’s national identification number may also be specified, if available.

The address should contain the street, street number, city/town or state/county, postal code and country. If any of these particulars is missing, the Office will issue a deficiency and set a time limit of 2 months to remedy the deficiency or to provide a valid reason for omitting it. The applicant should indicate only one address; however, if there are several, the first one listed will be recorded as the address for service, unless the applicant specifically designates a different one.

For more information on communication with the Office, please refer to the Guidelines, Part A, General Rules, Section 1, Means of Communication, Time Limits.

7.2 Representative

If the applicant has its domicile, principal place of business or a real and effective industrial or commercial establishment in the European Economic Area (EEA), there is no obligation for it to be represented.
If the applicant does not have its domicile, principal place of business or a real and effective industrial or commercial establishment in the EEA, regardless of its nationality, representation must be sought to act for it in all proceedings except the filing of the EUTM application and the payment of the application fee. Every representative in the sense of Article 120 EUTMR who files an application with the Office is placed on the Representative database and given an ID number. If the representative has been allocated an ID number by the Office, it is sufficient to indicate only that number and his or her name.

For more information on representation, see the Guidelines, Part A, General Rules, Section 5, Professional Representation.

### 7.3 Change of name/address

Article 55 and Article 111(3)(a) EUTMR

The name and address of the applicant may be amended. A change in the name of the applicant is a change that does not affect the identity of the applicant, whereas a transfer is a change in the identity of the applicant. For more information on the definition of a change of name and how it compares with a transfer, see the Guidelines, Part E, Register Operations, Section 1, Changes in a Registration and Section 3, EUTMs and RCDs as Objects of Property, Chapter 1, Transfer.

### 7.4 Transfer of ownership

Article 20(4) and (9) and Articles 28 and 111 EUTMR
Article 13 EUTMR

EUTM registrations and applications may be transferred from the previous proprietor/applicant to a new proprietor/applicant, primarily by way of assignment or legal succession. The transfer may be limited to some of the goods and/or services for which the mark is registered or applied for (partial transfer). At the request of one of the parties, a transfer will be entered in the Register and published.

For more information on the recording of transfers of ownership see the Guidelines, Part E, Register Operations, Section 3, EUTMs and RCDs as Objects of Property, Chapter 1, Transfer.

### 8 Kind of Mark

The EUTMR distinguishes between three kinds of marks: individual, collective and certification. The Office’s decisions and communications will identify collective or certification marks, as appropriate.

#### 8.1 Individual marks

Article 5 EUTMR
An individual mark is a kind of trade mark that indicates the commercial origin of the protected goods and/or services. Any natural or legal person, or person equivalent to these persons under the national law applicable to them, including authorities established under public law, may be the proprietor of a European Union individual trade mark, irrespective of their nationality.

8.2 Collective marks

Articles 41(2) and Articles 74 to 76 EUTMR
Article 16 EUTMIR

8.2.1 Character of collective marks

A collective mark is a specific kind of trade mark, described as such when the mark is applied for, that indicates that the goods or services protected by that mark originate from members of an association, rather than from just one trader. Collective does not mean that the mark belongs to several persons nor that it designates/covers more than one country.

Collective marks can be used to publicise products that are characteristic of a particular region, and may be used together with the individual mark of the producer of a given good. This allows members of an association to differentiate their own products from those of competitors.

For further information on the substantive requirements of EU collective marks, see the Guidelines, Part B, Examination, Section 4, Absolute Grounds for Refusal, Chapter 15, European Union Collective Marks.

8.2.2 Applicants for collective marks

Associations of manufacturers, producers, suppliers of services or traders that, under the terms of the law governing them, have the capacity in their own name to have rights and obligations of all kinds, to make contracts or accomplish other legal acts and to sue or be sued, as well as legal persons governed by public law, may apply for a collective mark.

For further information on the ownership requirements of EU collective marks, please see the Guidelines, Part B, Examination, Section 4, Absolute Grounds for Refusal, Chapter 15, European Union Collective Marks.

8.2.3 Documents to be submitted

In addition to the information to be submitted when applying for an individual trade mark, applications for a European Union collective trade mark require the submission of regulations governing use of the mark. These regulations must include:

1. the name of the applicant;
2. the object of the association or the object for which the legal person governed by public law is constituted;
3. the bodies authorised to represent the association or the said legal person;
4. for associations, the conditions for membership;
5. the representation of the EU collective mark;
6. the persons authorised to use the mark;
7. where appropriate, the conditions governing use of the mark, including sanctions;
8. the goods or services covered by the EU collective mark including, where appropriate, any limitation introduced as a consequence of the application of Article 7(1)(j), (k) or (l) EUTMR;
9. where appropriate, the authorisation referred to in the second sentence of Article 75(2) EUTMR.

8.2.4 Examination of formalities relating to collective marks

8.2.4.1 Regulations governing use not submitted

If the regulations are not submitted with the application, a deficiency letter will be sent, setting a time limit of 2 months to submit them.

If the regulations are not submitted within this 2-month time limit, the application will be rejected.

8.2.4.2 Regulations governing use submitted but with deficiencies

If the regulations have been submitted but fail to specify the required information, as listed in paragraph 8.2.3 above, a deficiency letter will be sent, setting a time limit of 2 months to submit the missing information.

If the deficiency is not remedied within this 2-month time limit, the application will be rejected.

8.2.4.3 Regulations governing use submitted but goods and services not updated after a limitation as a consequence of Article 7(1)(j), (k) or (l) EUTMR

A limitation as a consequence of Article 7(1)(j), (k) or (l) EUTMR will take place during the examination of Absolute Grounds for Refusal, and the applicant will be requested to submit an updated regulation governing use when an objection is issued under one of the abovementioned articles.

For more details, please refer to the Guidelines, Part B, Examination, Section 4, Absolute Grounds for Refusal, Chapter 15, European Union Collective marks.

8.3 Certification marks

Article 41(2) and Articles 83 to 93 EUTMR
Article 17 EUTMIR
8.3.1 Character of certification marks

An EU certification mark is an EU trade mark that is described as such when the mark is applied for and is capable of distinguishing goods or services that are certified by the proprietor of the mark in respect of material, mode of manufacture of the goods or performance of the services, quality, accuracy or other characteristics, with the exception of geographical origin, from goods and services that are not thus certified.

For further information on the substantive requirements of European Union certification marks, see the Guidelines, Part B, Examination, Section 4, Absolute Grounds for Refusal, Chapter 16, European Union Certification Marks.

8.3.2 Applicants for certification marks

Any natural or legal person, including institutions, authorities and bodies governed by public law, may apply for EU certification marks, provided that such person does not carry on a business involving the supply of goods or services of the kind certified.

For further information on the substantive requirements of European Union certification marks, see the Guidelines, Part B, Examination, Section 4, Absolute Grounds for Refusal, Chapter 16, European Union Certification Marks.

8.3.3 Documents to be submitted

In addition to the information to be submitted when applying for an individual trade mark, applications for a European Union certification trade mark require the submission of regulations governing use of the mark. These regulations must include:

1. the name of the applicant;
2. a declaration that the applicant complies with the requirements laid down in Article 83(2) EUTMR, i.e. a declaration by the applicant that it does not carry on a business involving the supply of goods and services of the kind certified.
3. the representation of the EU certification mark;
4. the goods or services covered by the EU certification mark;
5. the characteristics of the goods or services to be certified by the EU certification mark, such as the material, mode of manufacture of the goods or performance of the services, quality or accuracy.
6. the conditions governing use of the EU certification mark, including sanctions;
7. the persons authorised to use the EU certification mark;
8. how the certifying body is to test the characteristics and supervise use of the EU certification mark.
8.3.4 Examination of formalities relating to certification marks

8.3.4.1 Regulations governing use not submitted

If the regulations are not submitted with the application, a deficiency letter will be sent, setting a time limit of 2 months to submit them.

If the regulations are not submitted within this 2-month time limit, the application will be rejected.

8.3.4.2 Regulations governing use submitted but with deficiencies

If the regulations have been submitted but fail to specify the required information, as listed in paragraph 8.3.3 above, a deficiency letter will be sent, setting a time limit of 2 months to submit the missing information.

If the deficiency is not remedied within this 2-month time limit, the application will be rejected.

8.4 Changes of kind of mark

When the EUTM application is not for an individual trade mark, the applicant must include a statement to the effect that the application is for the registration of an EU collective mark or an EU certification mark (Article 2(1)(i) EUTMR). The trade mark must fulfil the requirements of the corresponding kind of mark.

However, there might be circumstances under which the applicant can request a change of kind of mark because the kind selected upon application is obviously wrong. Where the request for such a change is accepted, any fee surplus will be refunded.

Should the change requested be refused by the Office, the applicant will be informed and a time limit of 2 months will be set for observations.

If a natural person has applied for a collective mark by mistake, he or she may request that the kind of mark be changed to ‘individual’ (since collective marks cannot be granted to natural persons) or to ‘certification’, provided that the latter is supported by the submission of appropriate regulations governing use.

A legal person that has erroneously applied for a collective mark can request that the kind of mark be changed to ‘certification’ (and vice versa), provided that the regulations submitted governing use support the change and there are no indications in the file that the applicant intended to apply for the initial kind of mark applied for.

Some examples for the applicant’s intention would be:

- the mark representation or the regulations governing use refer to a ‘collective mark’ or ‘certification mark’; or
- regulations governing use of the collective mark or certification mark have been submitted.

Since, for applications for EU collective marks with a filing date before 01/10/2017, the EUTM regulations do not provide for the possibility of changing the kind of mark to an
EU certification mark, the Office will not accept any requests for such changes. Nor may the kind of mark be changed after registration, irrespective of when it was filed.

9 Mark Type

| Article 4, Article 7(1)(a), Articles 31 and 41 and Article 49(2) EUTMR |
| Article 3(3) EUTMIR |
| Conditions of Use of the User Area |

The categorisation of marks serves a number of functions. Firstly, it establishes the legal requirements for each type of mark; secondly, it can help the Office and other economic operators to understand what the applicant is seeking to register; and finally, it facilitates searches in the Office database.

A trade mark may be represented in any appropriate form using generally available technologies as long as it can be reproduced on the Register in a clear, precise, self-contained, easily accessible, intelligible, durable and objective manner so as to enable the competent authorities and the public to determine with clarity and precision the subject matter of the protection afforded to its proprietor. The representation cannot be replaced by a description of the mark but the description, when given, must accord with the representation.

When figurative, shape, position, pattern, motion, multimedia marks, holograms or ‘other’ marks are to be registered in colour, a coloured reproduction of the mark must be filed with the application.

It is no longer possible to indicate the colour(s) appearing in the trade mark or give any colour code, with two exceptions — first, when colours form part of the trade mark representation and are also indicated as an integral part of any description given, and, second, when colours are indicated for the sole purpose of claiming priority in other jurisdictions. However, such indications will neither be published and translated nor appear in the EUTM Register (see paragraph 11.3.5.2 below).

If the applicant fails to submit a representation when filing the EUTM application, a deficiency will be notified to the effect that no filing date can be accorded (see paragraph 4 above, Filing Date).

If the representation is as such not acceptable and cannot be remedied, the EUTM application will not meet the requirements of Article 4 EUTMR, no filing date will be accorded and the application will not be treated as an application for an EUTM (‘deemed not filed’). A deficiency notice will be issued and a time limit of 2 months will be set for submitting observations in reply.

Where (in cases other than e-filing) the application contains a representation of the mark without specifying the desired mark type, the Office will grant a filing date and, based on the representation submitted, accord the appropriate mark type where possible and inform the applicant in writing, setting a 2-month time limit for observations.

Where a representation is submitted but the Office cannot accord any mark type ex officio, a formality deficiency will be issued and the applicant will be requested to remedy such deficiency within 2 months.
Where the applicant has selected a mark type that does not correspond to the mark representation, the mark type will be corrected following the indications set out below under paragraph 9.13, Correction of mark type.

The examples of mark types in these Guidelines are given only in the context of formalities’ issues without prejudice to the outcome of the examination proceedings or to their scope of protection.

Verbal elements consist of letters in the alphabet of any official EU language, and keyboard signs. Where a mark other than a word mark contains any such verbal element that is visible from the representation, it must be included in the ‘word element(s)’ field of the application form. This allows the mark to be searched for within the database and also forms the basis of the language check for marks that is carried out in all official languages of the EU.

The EUTMIR stipulates for which mark types a mark description may be submitted by the applicant and defines the content of the description. Where the mark description is not in line with the EUTMIR or does not accord with the representation, the Office will ask the applicant to amend or delete it.

Where goods and services are mentioned in the mark description field rather than in the field for goods and services, the Office will delete them from the mark description and, if the goods and services are not already covered in the specification, inform the applicant that it must add the goods and services.

This principle applies mutatis mutandis in all cases where necessary information on the mark is included in the wrong field of the application form.

After the mark has been filed, a mark description can be amended or added in order to submit more detailed information. However, such amendment must not alter the nature of the mark and must accord with the representation. Amendment of the description is not possible after registration (Article 54(1) EUTMR).

9.1 Word marks

A word mark is a typewritten mark with elements including letters (either lower or upper case), words (either in lower or upper case letters), numerals or standard typographic characters.

A word mark must be represented by submitting a reproduction of the sign in standard script and layout, without any graphic feature or colour. Standard layout is to be understood as written across a single line. The Office accepts signs in the alphabet of any official EU language as a word mark. A mark consisting of text in non-standard layout, for instance written across more than one line, will not be categorised as a word mark, as these marks are considered to be figurative.

9.2 Figurative marks

A figurative mark is a mark consisting of:

- exclusively figurative elements;
- a combination of verbal and figurative or otherwise graphical elements;
- verbal elements in non-standard fonts;
- verbal elements in colour;
- verbal elements on more than one line;
- letters from non-EU alphabets;
- signs that cannot be reproduced by a keyboard;
- combinations of the above.

A figurative mark must be represented by submitting a reproduction of the sign, showing all its elements and, where applicable, its colour(s).

The representation may be submitted in one single JPEG file or on one single A4 sheet.

As from 01/10/2017, the Office does not accept any mark description or indication of colour for figurative marks, as the representation of the trade mark alone defines the subject matter of the registration.

### 9.3 Shape marks

A shape mark is a mark consisting of, or extending to, a three-dimensional shape, including containers, packaging, the product itself or its appearance. The term ‘extending to’ means that shape marks cover not only shapes per se, but also shapes that contain other elements, such as word elements, figurative elements or labels.
The shape mark may be represented by either a graphic representation of the shape or a photographic reproduction. The meaning of a graphic representation is extended to comprise the use of new technology, thereby allowing the filing of computer-generated images or animated designs in file formats OBJ, STL and X3D, with a maximum size of 20 MB.

Where the EUTM application for a shape mark is intended to be used as the basis for an international application, the applicant should be aware and take into account that computer-generated images, animated designs, etc. are currently not considered acceptable mark representations under the Madrid System.

Where the representation is not a computer-generated image, it may contain up to six perspectives of the same shape. The different views must be submitted in one single JPEG file or on one single A4 sheet. While different perspectives may be filed, a single view of the shape is sufficient where the shape to be protected can be ascertained from that single view.

Where an applicant files different perspectives of a three-dimensional object on more than one sheet of paper, a deficiency will be raised, setting a time limit for the applicant to indicate which one of the representations filed will be the representation of the EUTM application. Likewise, where a single JPEG file or a single A4 sheet consists of more than six perspectives of the same three-dimensional shape, a deficiency will be raised, setting a time limit for the applicant to remove the perspective(s) exceeding the maximum number allowed, provided that the amendment does not substantially change the mark as filed.

Where the views filed for a shape mark application consist of different objects depicted in one JPEG file or on a single sheet of A4 paper, the deficiency cannot be remedied since the deletion of one or more of these different objects would mean a considerable alteration of the mark representation (see below under paragraph 15, Amendments to the EUTM Application). In this case, the application must be rejected, as the representation does not show a single three-dimensional shape.

Applicants applying for registration of a shape mark must indicate this in the application. If no mark type is indicated and only one view has been submitted, from which it cannot be inferred that the sign consists of or extends to a 3D shape, the Office will treat the representation as a figurative trade mark.

Example

![Image]

No mark type was selected for this sign. The Office will treat it as a figurative mark.

As from 01/10/2017, the Office does not accept any mark description or indication of colour for shape marks, as the representation of the trade mark alone defines the subject matter of the registration.
<table>
<thead>
<tr>

</tr>
</tbody>
</table>
| **EUTM No 6 910 021**  
Five views, but not showing the same object |
| **EUTM No 7 469 661**  
No text in addition to the representation of the mark is allowed (text below the photo of the bottle) |
| **EUTM No 9 739 731**  
The first and third bottles show two different perspectives of the same bottle, both with a grey lid. The second bottle has a blue lid, and is therefore a different object to those pictured in the first and third bottles. The fourth image is completely different, showing two bottle tops and a label. Of the four perspectives, only the first and third are views of the same object. |
| **EUTM No 13 324 363**  
The first four images and the sixth image show the same shape mark from different perspectives. However, the fifth image is inconsistent with the others in that it shows a different shape mark, as it has been manipulated. Views of an object in a different state (e.g. open v closed) are not considered to be the same mark. |
| **EUTM No 13 882 725**  
The last three images show the same shape mark (closed bottle) from different perspectives. However, the first image is inconsistent with the others in that it shows a different shape mark, as it has been manipulated (open bottle). Views of an object in a different state (e.g. open v closed) are not considered to be the same mark. |
9.4 Position marks

A position mark is a trade mark consisting of the specific way in which the trade mark is placed on or affixed to the product.

This type of mark must be represented by submitting a reproduction that identifies appropriately the position of the mark and its size or proportion with respect to the relevant goods. The representation may be submitted in one single JPEG file or on one single A4 sheet.

The representation should clearly define the position of the mark and its size or proportion with respect to the relevant goods. The elements that do not form part of the subject matter of the registration must be visually disclaimed, preferably by broken or dotted lines. A description that accords with the representation of the mark may be added to indicate how the sign is affixed to the goods. This cannot, however, serve as a substitute for a visual disclaimer. Colours, to the extent that they form an integral part of the description, may be indicated therein.

A description that infers that the position of the mark may vary with respect to the goods, for example ‘The mark consists of [description of the device] applied to the outside of the goods’, is not acceptable. In this case, the Office will notify a formality deficiency, requesting the applicant to amend or delete the description, as the position of the mark must be clearly defined with respect to the relevant goods.

| Examples of acceptable mark description for position mark (for formalities’ purposes) |
| EUTM No 1 027 747 | Mark type: Position mark  |
| **Description:** | Red stripe placed longitudinally along an item of footwear partly covering the rear area of the sole and partly the rear area of the item of footwear. Any moulding seen on the sole or on the rear part of the item of footwear and/or production characteristics are not part of the trade mark. |

| EUTM No 6 900 898 | **Description:** Two Curves Crossed in One Point Design inserted in a Pocket; the mark consists of a decorative stitching made of Two Curves Crossed in One Point Design inserted in a Pocket; one of the curves is characterised by an arched form, drawn with a fine stroke, while the second one is characterised by a sinusoidal form, drawn with a thick stroke; the unevenly broken lines represent the perimeter of the pocket to which the applicant makes no claim and which serves only to indicate the position of the mark on the pocket. |

</tr>
</thead>
<tbody>
<tr>
<td><strong>EUTM No 8 586 489</strong></td>
</tr>
</tbody>
</table>

*Description:* The trade mark is a position mark. The mark consists of two parallel lines positioned on the outside surface of the upper part of a shoe. The first line runs from the middle of the sole edge of a shoe and slopes backwards towards the instep of a shoe. The second line runs parallel with the first line and continues in a curve backwards along the counter of a shoe to the heel of a shoe and ends at the sole edge of a shoe. The dotted line marks the position of the trade mark and does not form part of the mark.

---

### 9.5 Pattern marks

A pattern mark is a trade mark consisting exclusively of a set of elements that are repeated regularly.

This type of mark must be represented by submitting a reproduction showing the pattern of repetition in one single JPEG file or on one single A4 sheet.

The representation of the pattern mark may be accompanied by a description detailing how its elements are repeated regularly. Such description must accord with the representation and not extend its scope. Colours, to the extent that they form an integral part of the description, may be indicated therein.

### 9.6 Colour marks

Article 49(2) EUTMR

Article 3(3)(f) EUTMIR

A colour mark is a trade mark that consists exclusively of a single colour without contour or a combination of colours without contours. What is protected is the shade of colour(s) and, in the case of more than one colour, the systematic arrangement of the

The representation of a colour mark must consist of a representation of the colour or colours without contours in one single JPEG file or on one single A4 sheet. Where there is more than one colour, the reproduction must show the systematic arrangement of the colour combination.

It is mandatory to file a reference to a generally recognised colour code, such as Pantone, Hex, RAL, RGB or CMYK. Where the colour code(s) clearly do(es) not correspond to the representation, the Office will issue a deficiency.

If the colour code has not been indicated in the application, the Office will notify the deficiency, allowing 2 months for the information to be submitted. If the colours are indicated in words instead of colour codes in the relevant field of the application form for the indication of colours, the Office will remove such colour indications and inform the applicant accordingly.

A description detailing the systematic arrangement of the colours is merely optional and references to colours in words in the mark description are accepted.

If the representation contains other elements, such as words, it is not a colour mark per se but a figurative mark. For information on correction of the mark type, see paragraph 9.13 below.

### Examples of acceptable colour marks (for formalities’ purposes)

</tr>
<tr>
<td><strong>Description:</strong> none</td>
</tr>
</tbody>
</table>
### 9.7 Sound marks

A sound mark is defined as a trade mark consisting **exclusively** of a sound or combination of sounds. Therefore, trade marks combining sounds with, for example, movement do not qualify as sound marks per se and should be applied for as multimedia marks (see paragraph 9.13 below).

A sound mark must be represented by submitting either an audio file reproducing the sound or an accurate representation of the sound in musical notation.

The audio file must be in MP3 format and its size cannot exceed two megabytes. Office requirements do not allow the sound to stream or loop. Any other attachments or attachments that do not comply with these criteria will be deemed not to have been filed.

An audio file may be submitted only for e-filings. The Office will not accept an electronic sound file separately from the application.

Where the EUTM application for a sound mark is intended to be used as the basis for an international application, the applicant should be aware and take into account that audio files are currently not considered acceptable mark representations under the Madrid System.

Musical notations may be submitted in one single JPEG file or on one single A4 sheet. ‘Accurate musical notation’ means that the representation must include all the elements necessary for interpreting the melody, that is to say, pitch, tempo, lyrics (if any), etc.

If the applicant submits both an audio file and musical notations, it will be asked to choose which of the two it wishes to retain. If the applicant submits an audio file and a representation of a sonograph, the sonograph will be removed from the file by the Office.

As from 01/10/2017, the Office does not accept any mark description for sound marks as the representation of the trade mark alone defines the subject matter of the registration.
9.8 Motion marks

A motion mark is defined as a trade mark consisting of, or extending to, a movement or a change in the position of the elements of the mark. Trade marks combining movement with sounds do not qualify as motion marks and should be applied for as multimedia marks (see paragraph 9.13 below). The term ‘extending to’ means that, in addition to the movement itself, the mark may also include words, figurative elements, labels, etc.

A motion mark must be represented by submitting either a video file or a series of still sequential images showing the movement or change of position. The video file must be in MP4 format and may not exceed 8 000 Kbps (kilobytes per second) and 20 MB.

A video file may be submitted only for e-filings. The Office will not accept a video file separately from the application.

Where the EUTM application for a motion mark is intended to be used as the basis for an international application, the applicant should be aware and take into account that video files are currently not considered acceptable mark representations under the Madrid System.

The number of images is practically unlimited as long as they all fit in one single JPEG file or on one single A4 sheet. The still images may be numbered and/or accompanied by a description explaining the sequence.

The representation of the motion mark may be accompanied by a description. Such description must accord with the representation and not extend its scope. Colours, to the extent that they form an integral part of the description, may be indicated therein.
### Example of motion mark applied for with still sequential images

<table>
<thead>
<tr>
<th>EUTM No 5 338 629</th>
</tr>
</thead>
</table>

**Description:** The mark is an animated sequence with two flared segments that join in the upper right portion of the mark. During the animation sequence, a geometric object moves up adjacent to the first segment and then down adjacent to the second segment, while individual chords within each segment turn from dark to light. Stippling shown in the mark is for shading only. The entire animated sequence lasts between one and two seconds.

## 9.9 Multimedia marks

A multimedia mark is defined as a trade mark consisting of, or extending to, the combination of image and sound. The term ‘extending to’ means that the mark may also include words, figurative elements, labels, etc. in addition to the image and sound.

A multimedia mark can only be represented by submitting an audiovisual file containing both the image and the sound and can therefore only be filed via e-filing. The Office will not accept an audiovisual file separately from the application. The audiovisual file must be in MP4 format and may not exceed 8 000 Kbps (kilobytes per second) and 20 MB.

Where the EUTM application for a multimedia mark is intended to be used as the basis for an international application, the applicant should be aware and take into account that audiovisual files are currently not considered acceptable mark representations under the Madrid System.

The Office does not accept any mark description or indication of colour for multimedia marks as the representation of the trade mark alone defines the subject matter of the registration.

## 9.10 Hologram marks

A hologram mark is defined as a trade mark consisting of elements with holographic characteristics.

A hologram mark must be represented by submitting either a video file or a graphic or photographic reproduction containing the views necessary for sufficiently identifying the holographic effect in its entirety.

The video file must be in MP4 format and may not exceed 8 000 Kbps (kilobytes per second) and 20 MB. A video file may be submitted only for e-filings. The Office will not accept a video file separately from the application.

The number of views is unlimited as long as they all fit in one single JPEG file or on one single A4 sheet.

Where the EUTM application for a hologram mark is intended to be used as the basis for an international application, the applicant should be aware and take into account that video files are currently not considered acceptable mark representations under the Madrid System.

*Guidelines for Examination in the Office, Part B, Examination*
As from 01/10/2017, the Office does not accept any mark description or indication of colour for hologram marks, as the representation of the trade mark alone defines the subject matter of the registration.

9.11 Other marks

‘Other’ marks are marks that are not covered by Article 3(3) EUTMIR. ‘Other’ marks must comply with the requirements for representation as stipulated in Article 3(1) EUTMIR and may be accompanied by a mark description, for example to specify what is meant by ‘other’.

The mark description must accord with the representation and confirm that the mark type cannot be identified under the mark types mentioned above. If the description does not coincide with the representation, the Office will request that the applicant amend or delete it. Colours, to the extent that they form an integral part of the description, may be indicated therein.

Some examples of ‘other’ marks are discussed below.

9.11.1 Tracer marks

Tracer marks are coloured lines or threads applied to certain products, and are popular in the textile industry. Other examples are coloured lines on hoses or cables. The mark description could indicate that the mark is a ‘tracer mark’.

| Examples of acceptable tracer marks and descriptions (for formalities’ purposes) |
|---|---|
| **EUTM No 7 332 315** | ![Tracer mark example 1](image1.png) |
| **Description:** The trade mark consists of a pipe, tube or extruded profile with continuous thin black horizontal lines set at an equal distance apart on the exterior of the pipe, tube or extruded profile, between two parallel red lines running along the length of the pipe, tube or extruded profile. |

| **EUTM No 3 001 203** | ![Tracer mark example 2](image2.png) |
| **Description:** Golden band incorporated into a light-coloured functional band, in particular a lead band, for curtains, drapes, table covers and similar goods as an identifying marking. |

9.11.2 Smell/olfactory and taste marks

Smell/olfactory or taste marks are currently not acceptable. This is because the representation must be clear, precise, self-contained, easily accessible, intelligible,
durable and objective (Article 3(1) EUTMIR), and the current state of technology does not allow these types of marks to be represented in such way. Furthermore, the EUTMIR does not recognise the submission of samples or specimens as suitable representation. A mark description cannot replace the representation, because a description of a smell or taste is neither clear, precise nor objective (12/12/2002, C-273/00, Sieckmann, EU:C:2002:748, § 69-73; 04/08/2003, R 120/2001-2, THE TASTE OF ARTIFICIAL STRAWBERRY FLAVOUR (gust.)). Therefore, any application for an olfactory or taste mark will not be treated as an application for an EUTM ('deemed not filed') by the Office.

9.11.3 Tactile marks

Tactile marks are marks where protection is sought for the tactile effect of a certain material or texture, for instance indications in braille alphabet or the specific surface of an object. However, taking into account the requirement under Article 4 EUTMR that the trade mark must be represented on the register in a manner that enables the competent authorities and the public to determine the clear and precise subject matter of the protection afforded to its proprietor, it is not possible with currently available technology to deduce with certainty from the image as filed the 'tactile feeling' claimed (27/05/2015, R 2588/2014-2, EMBOSSED PATTERN ON A SMOOTH BOTTLE SURFACE (al.)). Furthermore, the EUTMIR does not recognise the submission of samples or specimens as suitable representation. Therefore, any application for a tactile mark will not be treated as an application for an EUTM ('deemed not filed') by the Office.

9.12 Correction of mark type

9.12.1 General rules

If the mark type indicated in the application contradicts the representation submitted, or if no mark type is given, **and it is obvious** which mark type the applicant intended to apply for, the Office will correct the mark type and inform the applicant, giving a 2-month time limit for observations. If there is no response, the correction made by the Office is considered accepted by the applicant. If the applicant disagrees with the amendment, the Office will restore the original mark type indicated; however, the application may then be rejected if the nature of the mark is not clear.

Likewise, if the mark type indicated contradicts the representation submitted, or if no mark type is given, **but it is not obvious** which mark type the applicant intended to apply for, a deficiency will be issued and a time limit of 2 months set to remedy any deficiency. If the deficiency is not remedied, the EUTM application will be refused.

If the description does not match the representation of the mark, the applicant will be asked to delete or amend it. The mark representation cannot be changed to match the mark description.

The Office cannot accept any request for the mark type of a mark with a filing date before 01/10/2017 to be changed to one of the new mark types defined as of that date in the EUTMIR (Article 39(2)(a) EUTMIR).
9.12.2 Examples of recurring mark type deficiencies

9.12.2.1 Word marks

Where the mark type chosen is ‘word’, but the mark is actually a ‘figurative’ mark, such as in the examples in paragraph 9.2 above (representation on several lines, stylised font, etc.), the Office will correct the mark type and update the figurative image in the system. The Office will send a letter to the applicant, informing them of the amendment and setting a 2-month time limit for observations. If the applicant does not reply within the time limit, the amendment will be deemed to have been accepted. If the applicant files observations objecting to the amendment, and the Office disagrees with the observations, the mark type will be changed back to ‘word’ mark, but the application will be rejected.

9.12.2.2 Figurative marks

If no mark type has been indicated at all and the mark is clearly figurative in accordance with the examples given above, the mark type is inserted by the Office and the applicant is informed accordingly.

Sometimes ‘figurative’ marks in colour are erroneously filed as ‘colour marks’. Furthermore, the differences in typology of the miscellaneous marks within the EU Member States may lead to a mark type deficiency, in particular with regard to marks combining a word and a figurative element. In such cases, the Office will correct the mark type to ‘figurative’ and inform the applicant, setting a 2-month time limit for observations.

Example 1

A figurative mark applied for as a colour mark.

The Office will change the mark type from colour to figurative and send a letter confirming the amendment. If the applicant disagrees, they may submit observations. If the Office disagrees with the observations, it will restore the original indication of mark type, but the application will then be rejected. If, however, there is no response within the time limit, the change of mark type will be considered as accepted and the application will proceed.

Example 2

The following marks were applied for as mark type ‘other’:

<table>
<thead>
<tr>
<th>EUTM 9 328 121</th>
<th><img src="image" alt="Raley" /></th>
</tr>
</thead>
<tbody>
<tr>
<td>EUTM 9 323 346</td>
<td><img src="image" alt="WGB" /> Das Werkzeug</td>
</tr>
</tbody>
</table>
When the applicant has chosen the mark type ‘other’, instead of ticking ‘figurative’, and has added, in the explanatory field of the ‘other mark’, terms like ‘text and logo’, ‘marque semi-figurative’, ‘marca mixta’, ‘Wort-Bild-Marke’, or even ‘colour’ (because its mark contains elements in colour), but the mark applied for is clearly a figurative trade mark as defined above, the Office will change the mark type from other to figurative and send a letter to the applicant, informing them of the amendment and giving 2 months for observations to be filed. If the applicant does not reply within the 2-month time limit, the change of mark type will be deemed to have been accepted and the application will proceed. If the applicant files observations objecting to the amendment, and the Office disagrees with the observations, the Office will restore the original indication of mark type, but the application will then be rejected.

10 Series Marks

Unlike some national systems, the EUTMR does not allow for series/serial marks. When different versions of a trade mark are required, a separate EUTM application is required for each version.

Example 1

A word mark filed as ‘BRIGITTE brigitte Brigitte’ will not be ‘interpreted’ as ‘the word “Brigitte”, written either in upper case letters or in lower case letters or in “normal” script’; rather, it will be seen as the word mark exactly as filed, containing the female name ‘Brigitte’ three times. No deficiency letter will be sent and no changes to the mark will be accepted.

Example 2

Likewise, a word mark filed as ‘Linea Directa/Direct Line/Ligne Directe’ will not be ‘interpreted’ as ‘the term “direct line”, either in Spanish or in English or in French’; rather, it will be seen as a word mark containing all three language versions in the same sequence as applied for. No deficiency letter will be sent and no changes to the mark will be accepted.

10.1 Multiple figurative representations

In an application submitted through e-filing, the reproduction of the mark must be uploaded as a single JPEG file. When the paper application form is used, the mark reproduction must be attached on a single A4 sheet.

The JPEG file or A4 sheet must contain only one representation of the mark as applied for and no additional information whatsoever (except the indication of the correct position of the mark where this is not obvious; see Article 3(6) and (7) EUTMR).

Where an application, filed electronically or on paper, contains a JPEG file or an A4 sheet showing what might be seen as more than one mark representation, the combination as a whole of all those variations, as they appear on that one page, will be deemed as the mark for which protection is sought. Changes to the mark representation are not allowed.
Since the JPEG file attached to the above application contained all of the above images on a single page, the entirety of variations of logos and colours and texts is deemed one single trade mark.

When a paper-filed application contains more than one A4 sheet showing different marks, albeit very similar ones, the Office issues a deficiency letter, requesting the applicant to choose one mark from among the different variations. If the applicant wants to protect the others as well, it will have to file a new application for each of the other marks it wishes to register. When there is no response to the deficiency letter within the time limit set therein, the application will be rejected.

**11 (Convention) Priority**

Articles 34, 36 and 41 EUTMR  
Article 4 EUTMIR  
Decision EX-17-3 of the Executive Director of the Office concerning the formal requirements of a priority claim for a European Union trade mark or a seniority claim for a European Union trade mark or a designation of the European Union under the Madrid Protocol

The effect of the right of priority is that the date of priority will count as the date of filing of the European Union trade mark application for the purposes of establishing which rights take precedence in *inter partes* proceedings.

The principles of priority were first laid down in the Paris Convention for the Protection of Industrial Property of 20/03/1883, which has been revised several times and was last amended in 1979. Article 4 of this Convention — with regard to trade marks — corresponds to Article 34 EUTMR.

The ‘convention priority’ right is a right limited in time, which is triggered by the first regular filing of a trade mark. A regular national filing is any filing that is ‘adequate to establish the date on which the application was filed in the country concerned, whatever the subsequent fate of the application’ (Article 4A(3) Paris Convention). It may be claimed during the 6 months following the first filing, provided the country of first filing was a party to the Paris Convention or to the Agreement establishing the World Trade Organisation (WTO), or a country with a reciprocity agreement (see Article 34(5) to (7) EUTMR — publication on reciprocity by the Commission).
The states and other entities mentioned below, inter alia, are not members of any of the relevant conventions. Nor do they benefit from reciprocity agreements. Therefore, priority claims based on filings in these countries will be rejected.

Independent states (not party to PC, WTO or reciprocity agreement):

- Afghanistan (AF)
- Aruba (AW)
- Cook Islands (CK)
- Eritrea (ER)
- Ethiopia (ET)
- Kiribati (KI)
- Marshall Islands (MH)
- Micronesia (FM)
- Nauru (NR)
- Palau (PW)
- Somalia (SO)
- Tuvalu (TV).

Other entities (not party to PC, WTO or reciprocity agreement):

- Abkhazia (GE-AB)
- American Samoa (AS)
- Anguilla (AI)
- Bermuda (BM)
- Cayman Islands (KY)
- Falkland Islands (FK)
- Guernsey (GG)
- Isle of Man (IM)
- Jersey (JE)
- Montserrat (MS)
- Pitcairn Islands (PN)
- Saint Helena (SH)
- Turks and Caicos Islands (TC)
- British Virgin Islands (VG).

A priority claim of a previous EUTM is acceptable if that EUTM was granted a filing date. A priority claim of an international registration is not acceptable. This is because the principle of first filing applies (Article 34(4) EUTMR — see paragraph 11.2.1 below), and the priority claim can only be based on the relevant basic mark.

The applicant may claim the priority of one or more previous trade mark applications, namely a national (or Benelux) application filed in or for a state party to the Paris Convention, a Member of the WTO, or a state for which the Commission has confirmed reciprocity, or an EUTM application. See paragraph 11.2.1, ‘Principle of first filing’, for information on applications that claim the priority of more than one earlier application.

Any filing that is equivalent to a regular national filing under the domestic law applicable to it will be recognised as giving rise to the right of priority.

It is possible to claim both priority and seniority based on the same prior application/registration, provided that the requirements are met.
11.1 Formal requirements

Article 35 EUTMR lays down the formal requirements for priority claims. At the examination stage, the Office will only examine whether all formal requirements are met.

The formal requirements are:

- priority claim filed together with the EUTM application;
- number, date and country of the previous application;
- availability of official online sources to verify the priority data, or submission of priority documents and translations, where applicable.

11.1.1 Claiming priority

Priority may be claimed together with the EUTM application or in a separate communication filed on the same date as the EUTM application.

The file number, together with the date and country, of the previous application must be indicated when claiming priority.

The claim may be implicit, such that the submission of the priority documents with the application or in a separate communication filed on the same date as the EUTM application will be construed as a declaration of priority. Simple filing receipts containing the country, number and date of the earlier application(s) are accepted.

The documentation in support of the priority claim must be filed within 3 months of the filing date.

If the mark concerned is in colour, colour photocopies must be submitted for the earlier application(s).

It must be taken into account that the Office will publish the priority claim ‘as filed’, meaning that the Office will not confirm the validity of the priority claim.

11.1.2 Priority documents not submitted

If the priority documents are not submitted with the application, the Office will check whether the relevant information, namely the number, filing date and country, the name of the applicant or proprietor, the representation of the mark and the list of goods and services of the earlier trade mark application in respect of which priority is claimed, is available on the website of the central industrial property office of the country of first filing.

If the information of the priority claim cannot be found on such website, the Office will send a letter to the applicant, requesting that the priority documents, that is to say, a copy of the previous application, be submitted. The applicant will be given a time limit of 2 months to remedy the deficiency; as a rule, this time limit will not be extended. Usually, the deficiency letter will be issued before expiry of the original time limit for submitting the priority documents (3 months from the filing date of the EUTM application). In this case, the 2-month deficiency time limit will be calculated from the date of expiry of the original time limit for the submission of the priority documents.
Certified copies are not necessary. However, simple filing receipts that do not contain all the necessary information for examining the priority claim (e.g. containing only class numbers for the goods and services of the prior application and not the full text version indicating all the goods and services) are not acceptable.

11.1.3 Language of previous application

If the priority information available on an office website or the priority documents submitted are not in one of the languages of the European Union, the Office will invite the applicant to file a translation into the first or second language of the EUTM application.

11.1.4 Formal priority requirements not satisfied

If the priority claim is filed after the date of application of the EUTM, the Office will notify the loss of rights to the applicant and set a 2-month time limit during which the applicant may request a formal appealable decision on the loss of rights.

If the priority claim fails to satisfy any of the other formal requirements, the applicant will be invited to remedy the deficiency or make observations within the time limit set by the Office.

If there is no response, or if the deficiencies are not remedied within the time limit set, the Office will notify the loss of rights to the applicant and set a 2-month time limit during which the applicant may request a formal, appealable decision on the loss of rights.

If the applicant formally requests a decision within the time limit, the Office will issue a formal decision on the loss of rights.

11.2 Substantive requirements for priority claims

The requirements that refer to the substance of the priority claims are covered by Article 34 EUTMR and relate to the 6-month period, the condition of a first regular filing and triple identity (same owner, same mark and same goods and services).

The substantive requirements under Article 34 EUTMR will not be examined at the filing stage but during inter partes proceedings, where necessary, and will be restricted to the extent of the inter partes proceedings.

The substantive requirements of the priority claim will be examined when the outcome of the opposition or cancellation case depends on whether priority was validly claimed, which is in the following situations.

- In order to assess whether the trade mark on which the opposition (or invalidity request) is based is an ‘earlier mark’ or ‘earlier right’ within the meaning of Article 8(2) to (4) and (6) EUTMR. Determining the validity of the priority claim of the contested EUTM or earlier mark will be necessary when the relevant date of the earlier mark (its filing date or priority date) falls between the date of the claimed priority and the date of the filing of the contested EUTM. This will be
assessed when the admissibility of the action based on that earlier right is determined.

- In order to assess the admissibility of the request for proof of use (whether the earlier mark is subject to use or not). The assessment of the priority claim of the contested EUTM is necessary for determining the admissibility of the request for proof of use in *inter partes* proceedings when the 5 years from registration of the earlier right falls between the priority date of the contested mark and its filing date. Such examination does not preclude the re-assessment of substantive requirements in respect of the priority claim at the decision-taking stage if this is relevant for the outcome of the case.

- In order to determine the period of use. It will always be necessary to examine priority in order to calculate the 5-year period to which proof of use must relate.

11.2.1 Principle of first filing

The previous application must be a first regular filing and cannot be of the same date as the EUTM application. The Office will therefore check (i) that there was no priority claim made on the prior application(s) and (ii) that no seniority claim made for the EUTM application relates to a mark that has a filing date prior to that of the application(s) from which priority is claimed.

The Office will also check that the EUTM application was filed no later than 6 months following the date of filing of the earlier application(s).

Where priority of more than one earlier application is claimed, the goods and/or services covered by each of those applications must be different in order for the principle of first filing to be met. For examples, please see paragraph 11.3.1 below.

11.2.2 Triple identity

The Office will check that the EUTM application and the priority documents contain the same mark, refer to the same applicant and have all relevant goods or services in common.

11.2.2.1 Identity of the marks

The Office and a number of trade mark offices of the European Union have agreed on a common practice under the European Trade Mark and Design Network concerning the identity of trade marks filed in black and white and/or greyscale as compared with those filed in colour. The offices believe that the Common Practice Note issued is a reflection of the current case-law that a trade mark filed in black and white and/or greyscale is, for the purposes of assessing priority, not identical to the same mark filed in colour unless the differences in colour or shades of grey are so insignificant that they could go unnoticed by the average consumer (19/01/2012, T-103/11, Justing, EU:T:2012:19, § 24; 20/02/2013, T-378/11, Medinet, EU:T:2013:83 & 09/04/2014, T-623/11, Milańowek cream fudge, EU:T:2014:199). An insignificant difference between two marks is one that a reasonably observant consumer will perceive only upon examining the marks side by side.
The principle described above applies to all cases where marks are compared for the purpose of priority claims. In relation to word marks, the mark applied for will in most cases be deemed to be the same as the earlier mark where there is a difference only in respect of typeface or where one mark is in upper case letters and the other in lower case. Furthermore, a difference in punctuation or the addition of a space separating two words will not usually prevent the marks from having identity (09/10/2012, R 797/2012-2, WATER JEL; 15/07/1998, R 10/1998-2, THINKPAD).

The Office will also check the mark type of the earlier application, because a different mark type may mean that the EUTM application is different from the earlier mark. For example, a figurative mark is not the same as a shape mark or a position mark. However, a word mark can be considered to be the same as a figurative mark if standard type is used in the figurative mark (see the examples in paragraph 11.3.2 below).

11.2.2.2 Identity of the goods and services

The Office will check that all goods or services of the EUTM application that are relevant in inter partes proceedings are covered by the goods and services of the first filing.

11.2.2.3 Identity of the owner

Priority can be claimed by the applicant of the first application or its successor in title. In the latter case, the transfer must have taken place prior to the filing date of the EUTM application, and documentation to this effect must be submitted. The right of priority as such may be transferred independently of whether or not the first application as a whole is transferred. Priority can therefore be accepted even if the owners of the EUTM application and the earlier right are different, provided that evidence of the assignment of the priority right is produced; in this case, the execution date of the assignment must be prior to the filing date of the EUTM application.

Subsidiary or associated companies of the applicant are not considered to be the same as the EUTM applicant.

Where the applicant of the first application states that it has changed its name since the first filing, and files the EUTM application under its new name, the applicant is considered to be the same person.

For the distinction between a change of name and a transfer, see the Guidelines, Part E, Register Operations, Section 3, EUTMs and RCDs as Objects of Property, Chapter 1, Transfer.

11.2.3 Substantive priority requirements not satisfied

If the priority claim does not satisfy any of the above substantive requirements, the applicant will be invited to make observations within the time limit set by the Office.

If the priority right could not be proved or appeared to be unacceptable, the priority right would be refused. The outcome of the full examination would be reflected in the final decision on the opposition or cancellation proceedings.
11.3  Examples of priority claims

11.3.1  First filing

In the example below, the priority claim of more than one earlier application is acceptable because the goods covered by each of those earlier applications are different and therefore the principle of first filing is met.

<table>
<thead>
<tr>
<th>First filing</th>
<th>Country</th>
<th>Goods/services</th>
<th>EUTM filed</th>
<th>Goods/services</th>
</tr>
</thead>
<tbody>
<tr>
<td>6 April</td>
<td>Italy</td>
<td>Perfumes</td>
<td>11 September</td>
<td>Perfumes, bags, clothing</td>
</tr>
<tr>
<td>9 May</td>
<td>Germany</td>
<td>Bags</td>
<td></td>
<td></td>
</tr>
<tr>
<td>23 May</td>
<td>Spain</td>
<td>Clothing</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

In the example below, the two earlier trade mark applications were filed for exactly the same goods. The priority claim based on the Greek application has to be rejected since the trade mark was applied for in Spain first; thus the Greek application is no longer a first filing.

<table>
<thead>
<tr>
<th>First filing</th>
<th>Country</th>
<th>Goods/services</th>
<th>EUTM filed</th>
<th>Goods/services</th>
</tr>
</thead>
<tbody>
<tr>
<td>6 April</td>
<td>Spain</td>
<td>Cheese, wine</td>
<td>4 October</td>
<td>Cheese, wine</td>
</tr>
<tr>
<td>7 April</td>
<td>Greece</td>
<td>Cheese, wine</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

In the example below, priority cannot be claimed from a first filing in Somalia, since Somalia is not a party to the Paris Convention or the World Trade Organisation and has no reciprocity agreement confirmed by the EU Commission. Therefore, the first filing in Italy is the one considered for the priority claim; the other filing cannot be taken into consideration.

<table>
<thead>
<tr>
<th>First filing</th>
<th>Country</th>
<th>Goods/services</th>
<th>EUTM filed</th>
<th>Goods/services</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 April</td>
<td>Somalia</td>
<td>Cars, T-shirts</td>
<td>2 October</td>
<td>Cars, T-shirts</td>
</tr>
<tr>
<td>7 July</td>
<td>Italy</td>
<td>Cars, T-shirts</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

11.3.2  Comparison of the marks

The examples below cover acceptable and unacceptable priority claims for formalities’ purposes where the identity of the marks is assessed. As explained under paragraph 11.2.2.1 above, only ‘insignificant differences’ between the EUTM application and the mark invoked under the priority claim will be accepted, that is to say, differences that are not considered to alter the meaning, pronunciation and visual impact of the marks.

<table>

### Further examples for figurative marks (for formalities’ purposes)

<table>
<thead>
<tr>
<th>First trade mark</th>
<th>EUTM application</th>
<th>the same</th>
<th>not the same</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="ACHROMIN" /></td>
<td><img src="image" alt="ACHROMIN" /></td>
<td></td>
<td>X</td>
</tr>
<tr>
<td><img src="image" alt="ACHROMIN" /></td>
<td><img src="image" alt="ACHROMIN" /></td>
<td></td>
<td>X</td>
</tr>
<tr>
<td><img src="image" alt="ACHROMIN®" /></td>
<td><img src="image" alt="ACHROMIN" /></td>
<td>X*</td>
<td></td>
</tr>
</tbody>
</table>

*The symbols ™ and ® are not considered parts of the mark.*

11.3.3 Comparison of the goods and services

The first example below is the most usual situation: the prior application corresponds fully to the EUTM application.

<table>
<thead>
<tr>
<th>First filing</th>
<th>Country</th>
<th>Goods and services</th>
<th>EUTM filed</th>
<th>EUTM goods and services</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 April</td>
<td>UK</td>
<td>Hats, shoes</td>
<td>1 October</td>
<td>Hats, shoes</td>
</tr>
</tbody>
</table>
In the next example, both priority claims can be accepted since application number XY 1234 is the first filing with respect to cars and application number XY 1235 is the first filing with regard to airplanes.

<table>
<thead>
<tr>
<th>First filing</th>
<th>Country</th>
<th>JP application No</th>
<th>Goods and services</th>
<th>EUTM filed</th>
<th>EUTM goods and services</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 April</td>
<td>Japan</td>
<td>XY 1234</td>
<td>Cars</td>
<td>2 October</td>
<td>Cars, airplanes</td>
</tr>
<tr>
<td>5 April</td>
<td>Japan</td>
<td>XY 1235</td>
<td>Airplanes</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

In the next example, the priority claim concerns hats and shoes, which are common to the first filing and the EUTM application. No priority will apply with respect to bags.

<table>
<thead>
<tr>
<th>First filing</th>
<th>Country</th>
<th>Goods and services</th>
<th>EUTM filed</th>
<th>EUTM goods and services</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 April</td>
<td>USA</td>
<td>Cars, hats, shoes</td>
<td>1 October</td>
<td>Hats, shoes, bags</td>
</tr>
</tbody>
</table>

In the last example, priority is claimed for first filings in France, Canada and China. The EUTM application has been filed within 6 months of each of the first filings and the priority claims will be accepted, although the Canadian application does not constitute a first filing for hats (as hats appear in the French application, which was filed before the Canadian one). Comparing the dates and the lists of goods and services of the three priorities, the priority claims will be accepted.

<table>
<thead>
<tr>
<th>First filing</th>
<th>Country</th>
<th>Goods and services</th>
<th>EUTM filed</th>
<th>EUTM goods and services</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 April</td>
<td>France</td>
<td>Hats, shoes</td>
<td>5 October</td>
<td>Hats, shoes, cars, beer, wine, telecommunication services</td>
</tr>
<tr>
<td>6 April</td>
<td>Canada</td>
<td>Cars, hats, beer</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7 April</td>
<td>China</td>
<td>Wine, telecommunication services</td>
<td>5 October</td>
<td></td>
</tr>
</tbody>
</table>

### 11.3.4 Priority claims based on series marks

A series of trade marks refers to a number of trade marks that resemble each other in material details and differ only in terms of non-distinctive character. Whereas the EUTMR does not allow for the filing of series marks, some national offices (e.g. the United Kingdom, Australia) do, and such a series of marks filed in one single application can contain numerous very similar marks. When the first filing consists of a series mark, two or more slightly different mark representations will be seen. The priority claim is acceptable with regard to the one reproduction that is identical to that of the mark applied for as an EUTM.

<table>
<thead>
<tr>
<th>Series of marks</th>
<th>EUTM</th>
<th>Priority claim acceptable</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pulse Cafe</td>
<td>Pulse Cafe</td>
<td>Yes</td>
</tr>

#### 11.3.5 Claiming priority for marks represented in a different format

Issues may arise from the different formal requirements relating to the representation of marks at the various intellectual property offices around the world when claiming priority for, or on the basis of, an EUTM application.

**11.3.5.1 Claiming the priority of an earlier national filing for an EUTM application**

It may happen that an applicant wishing to claim the priority of a previous national filing represented graphically (e.g. by musical notes) files an EUTM application representing the mark in an electronic format (e.g. mp3 for a sound mark). In principle, the different method of representation is not an obstacle for accepting the priority claim so long as the earlier filing represents the same trade mark, albeit in a different format, and provided that the format used to represent the earlier filing is recognised by the Office. In the case of any discrepancy between the subject matter of the representations, the priority will be refused for that reason, not because of the different formats.

Furthermore, some national IP offices do not allow more than four representations to be filed for shape or other marks. If an EUTM application claims the priority of such a first filing, and six (or more, in the case of ‘other’ marks) depictions/perspectives of the mark are filed with the EUTM application, the marks in question will still be considered identical if the presentations of the first filing coincide with part of what was sent for the EUTM application and if the object is undoubtedly the same.

**11.3.5.2 Claiming the priority of an earlier EUTM filing for a national application**

As regards priority claims on the basis of an EUTM application, applicants should be aware of the possible non-acceptance by a particular national office of the format of representation used for filing with the Office. The Office cannot certify the concordance of the EUTM filing with that of a later national filing represented in a different format.

As regards colour indications, some countries require an indication of colour in writing for claiming priority. For this purpose, applicants may list colours in an optional field of the application form. That indication will not be part of the EUTM application, will not be examined and will not be published or reflected in the Register. Nevertheless, it will be part of the dossier for the purposes of file inspections and the applicant may thus obtain certification of such colour indications as filed.
12 Exhibition Priority

Article 38 EUTMR
Article 5 and Article 7(g) EUTMIR

Exhibition priority entails claiming as a priority date for the EUTM application the date on which the goods or services covered by the EUTM application were displayed at an officially recognised exhibition under the mark as filed. The applicant can claim exhibition priority within 6 months of the first display. Evidence of the display must be filed.

Like ‘convention priority’, exhibition priority can be claimed either in the application or subsequent to the filing of the EUTM application but still on the same day. Where the applicant wishes to claim an exhibition priority subsequent to the filing of the application, the declaration of priority, indicating the name of the exhibition and the date of first display of the goods or services must be submitted within 2 months of the filing date.

Within 3 months of the date of submitting the declaration of priority, the applicant must submit to the Office a certificate issued at the exhibition by the responsible authority. This certificate must state that the mark was in fact used for the goods or services, and indicate the opening date of the exhibition and, where the first public use did not coincide with the opening date of the exhibition, the date of first public use. The certificate must be accompanied by an identification of the actual use of the mark, duly certified by the authority.

Priority can only be granted where the application for an EUTM is filed within 6 months of the first display at an exhibition recognised for this purpose, namely a world exhibition within the meaning of the Convention Relating to International Exhibitions of 22/11/1928. These exhibitions are very rare and Article 33 EUTMR does not protect display at other, national, exhibitions. The exhibitions can be found on the website of the Paris Bureau International des Expositions: http://www.bie-paris.org/site/en/.

The Office will perform a full examination of the triple identity of the trade mark, applicant and list of goods and services at the filing stage.

The claim may be implicit. Where there is no indication of the claim in the application, the submission of the exhibition priority documents on the same date as the filing date of the EUTM application will be construed as a declaration of priority.

13 Seniority

Article 39 EUTMR
Article 6 and Article 7(h) EUTMIR
Communication No 2/00 of the President of the Office concerning seniority examination

The proprietor of an earlier trade mark registered in a Member State, including a trade mark registered in the Benelux countries, or registered under international arrangements having effect in a Member State, that applies for an identical trade mark for registration as an EUTM in respect of goods or services that are identical to or contained within those for which the earlier trade mark has been registered, may claim...
for the EUTM application the seniority of the earlier trade mark in respect of the Member State in or for which it is registered.

Seniority has the sole effect that, where the proprietor of an EUTM surrenders the earlier trade mark for which seniority has been claimed or allows it to lapse, the proprietor will be deemed to continue to have the same rights as it would have had if the earlier trade mark had continued to be registered.

This means that the EUTM application represents a consolidation of earlier national registrations. If an applicant claims seniority for one or more earlier registered national marks and the seniority claim is accepted, the applicant may decide not to renew the earlier national registration(s) but still be in the same position as if the earlier trade mark(s) had continued to be registered in those Member States.

Seniority under Article 39 EUTMR must be claimed with the application or within 2 months of the filing date of the EUTM application. The documents in support of the claim must be submitted within 3 months of the claim. The seniority claim may be implicit. If the applicant sends only the documents concerning the earlier registrations within 2 months of the filing date of the EUTM application, the Office will construe this as a seniority claim concerning these earlier registrations.

Seniority may be claimed not only for earlier national registrations, but also for an international registration with effect in an EU country. No seniority claim is possible, however, for an earlier EUTM registration or local registrations, even if the territory is part of the European Union (e.g. Gibraltar).

13.1 Harmonised seniority information

In order to be able to manage seniorities properly, all seniority entries in the system need to have the same format as that used in the databases of the national offices.

To enhance harmonisation between the Office and participating IP offices, a list with the required format for seniorities has been established. This list provides a description of the format/formats used in each of the national offices, insofar as this has been determined.

Therefore, when checking seniority, the Office must verify whether the format of the seniority corresponds to the format used at national level.

13.2 Seniority examination

A valid claim must contain the following indications:

1. the Member State or Member States of the EU in or for which the earlier mark for which seniority has been claimed is registered;
2. the filing date of the relevant registration;
3. the number of the relevant registration;
4. the goods or services for which the mark is registered.

The proprietor is not required to file a copy of the registration if the required information is available online. If the copy of the registration is not submitted, the Office will first search for the necessary information on the relevant website and only if the information
is not available there will send the proprietor a deficiency letter to request a copy. The copy of the relevant registration must consist of a copy (a simple photocopy will suffice) of the registration and/or renewal certificate or extract from the Register, or an extract from the relevant national gazette, or an extract or printout from an official database. Extracts and printouts from private databases are not accepted. Examples of extracts that are not accepted are DEMAS, MARQUESA, COMPUSERVE, THOMSON, OLIVIA, PATLINK, COMPUMARK and SAEGIS.

Seniority may only be claimed for an earlier registration, not for an earlier application.

The Office must check both that the earlier mark was registered at the time the EUTM application was filed and that the earlier registration had not lapsed at the time the claim was made (on the duration of protection of national marks see the Guidelines, Part C, Opposition, Section 1, Procedural Matters).

If the earlier registration had lapsed at the time the claim was made, seniority cannot be claimed, even if the relevant national trade mark law provides for a 6-month ‘grace’ period for renewal. While some national legislation allows for a grace period, if the renewal is not paid, the mark is considered to be not registered from the day it was due for renewal. Therefore, the claim is not acceptable, unless the applicant shows that it has renewed the earlier registration(s).

The seniority claimed for the EUTM will lapse if the earlier trade mark in respect of which seniority is claimed is declared to be invalid or revoked. If the earlier trade mark has been revoked, the seniority will lapse, provided that the revocation took effect prior to the filing date or priority date of the European Union trade mark (Article 39(3) EUTMR).

In the context of an enlargement of the EU, the following details have to be borne in mind. Where a national trade mark of, or an international registration with effect in, a new Member State was registered before the seniority claim is made, seniority may be claimed even though the priority, filing or registration date of the EUTM to which the seniority claim relates predates the priority, filing or registration date of the national mark/IR with effect in the new Member State. This is because the EUTM at issue only has effect in the new Member State from the date of accession. The national trade mark/IR with effect in the new Member State for which seniority is claimed is therefore ‘earlier’ than the EUTM within the sense of Article 39 EUTMR, provided that the national trade mark/IR with effect in the new Member State enjoys a priority, filing or registration date prior to the accession date.

### Examples of acceptable seniority claims for new Member States

<table>
<thead>
<tr>
<th>EUTM No</th>
<th>Filing date</th>
<th>Seniority claim country</th>
<th>Filing date of earlier right</th>
</tr>
</thead>
<tbody>
<tr>
<td>2 094 860 TESTOCAPS</td>
<td>20/02/2001</td>
<td>Cyprus</td>
<td>28/02/2001</td>
</tr>
<tr>
<td>2 417 723 PEGINTRON</td>
<td>19/10/2001</td>
<td>Hungary</td>
<td>08/11/2001</td>
</tr>
<tr>
<td>352 039 REDIPEN</td>
<td>02/04/1996</td>
<td>Bulgaria</td>
<td>30/04/1996</td>
</tr>
<tr>
<td>7 073 307 HydroTac</td>
<td>17/07/2008</td>
<td>Croatia</td>
<td>13/10/2009</td>
</tr>
</tbody>
</table>

**Explanation:** In all cases, although the filing date of the EUTM application is earlier than the filing date of the mark for which seniority is claimed, as all countries concerned acceded to the European Union after the filing date of the EUTM application (i.e. on 01/05/2004 for Cyprus and Hungary, on 01/01/2007 for Bulgaria and on 01/07/2013 for Croatia), and it is from that date that the EUTM application has protection in those...
Member States, seniority can be claimed for the national marks filed in those Member States prior to their dates of accession.

If the claim to seniority is in order, the Office will accept it and — once the EUTM application has been registered — inform the relevant central industrial property office(s) of the Member State(s) concerned.

Seniority can also be claimed after the EUTM is registered under Article 40 EUTMR. For further details, see the Guidelines, Part E, Register Operations, Section 1, Changes in a Registration.

13.3 Identity of the marks

Examination of seniority claims is limited to the formal requirements and to the identity of the marks.

As regards the triple-identity requirement (same owner, same mark, same goods and services), it is for the applicant to ensure that these requirements are met. The Office will examine only whether the marks are the same.

The comparison of the mark representations for the purposes of seniority claims is the same as that for priority claims detailed in paragraph 11.2.2.1 above.

13.4 Goods and services

Applicants may claim seniority for only some of the goods and services of the earlier registration(s). Effectively, the claim to seniority will be valid to the extent that there is an overlap between the goods and services of the EUTM application and the registration relied on. The applicant is not required to specify those goods and services, but may simply claim ‘seniority for all the goods that are found in the earlier mark to the extent that they are also found in the EUTM application’ (generic seniority claim).

13.5 Treatment of seniority examination deficiencies

If the claim is not valid, the earlier registration is not identical to the EUTM application, the seniority is claimed out of time (i.e. more than 2 months after the filing of the EUTM application) or the seniority documents are not acceptable and the relevant information cannot be found online, the Office will issue a deficiency letter.

If the deficiencies are not remedied within the time limit set by the Office, the applicant will be notified in writing of the loss of rights. At the same time the applicant will be informed that it can ask for a formal decision within 2 months of the notification.

If the applicant formally requests a decision within the time limit, the Office will issue a formal decision on the rejection of the seniority claim.
13.6 **Examples of seniority claims**

<table>
<thead>
<tr>

<td><img src="image3" alt="Cook or Die" /></td>
</tr>
</tbody>
</table>

For examples of acceptable and unacceptable priority claims that would also be acceptable and unacceptable seniority claims, see paragraph 11.3.2.
14 Transformation

Transformation is a legal feature introduced in the Madrid Protocol to soften the consequences of the 5-year dependency period between the international registration and the basic mark. In the event that the international registration designating the EU is cancelled at the request of the office of origin in respect of all or some of the goods and services, the holder of the international registration may file an EUTM application for the registration of the same mark in relation to the goods and services that have been cancelled. That application will be treated as if it had been filed on the date of the international registration or the subsequent designation of the EU and will enjoy the same priority, if any. For more details on transformation, see the Guidelines, Part M, International Marks.

15 Amendments to the EUTM Application

The applicant may at any time withdraw its EUTM application or restrict the list of goods and services covered by it. Other changes are only contemplated to correct certain mistakes.

Any change requested on the same day of filing of the EUTM application will be accepted.

This part of the Guidelines will only describe Office practice concerning amendments to the mark representation. For further details on withdrawal or restrictions, see the Guidelines, Part B, Examination, Section 1, Proceedings and, for restrictions specifically, the Guidelines, Part B, Examination, Section 3, Classification.

Once an application has been filed in colour, it is not possible to amend it to one that is not in colour (25/08/2010, R 1270/2010-4, Prüfköpfe (3D)). The applicant’s only option is to file a new application.

15.1 Amendments to the representation of the mark

The Office’s practice on amendments to the mark representation is very strict. The two conditions for allowing a change to a mark once filed are cumulative:

- the mistake must be obvious, and
- the amendment must not substantially change the mark as filed.

Even if the amendment is not a substantial one, if the mistake is not obvious, the Office will not accept the amendment.

In cases where the desired positioning of a mark is not obvious, the representation of the mark must indicate the correct position by adding the word ‘top’ to the reproduction of the sign. Where the application is filed by electronic means, unusual positioning may be indicated in the mark description.
In cases where the desired positioning of a mark is not obvious (e.g. a mark containing a verbal element is filed in a vertical position) and there is no indication of the intended positioning in the application, the applicant will be allowed to amend the position of the mark upon request. This is because the unusual positioning of the mark will be considered an obvious mistake.

If a priority or seniority claim is filed at the same time as the EUTM application, an obvious error may be proven by comparing the ‘correct’ mark in the claim with the mark on the EUTM application. However, if the priority or seniority claim is filed after the EUTM application, no evidence from these claims can be taken into account.

If the mistake is obvious, the mark must then be assessed according to the next criterion, namely whether the requested change substantially alters the mark as filed.

### Example of an acceptable amendment (for formalities’ purposes)

<table>
<thead>
<tr>
<th>EUTM No 546 010</th>
<th>Proposed change</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mark filed as ‘TOPFLOW’</td>
<td>‘TOP FLOW’</td>
</tr>
</tbody>
</table>

In the application form, the applicant claimed priority for the mark ‘TOP FLOW’, meaning that it was obvious that a typographical error had been made. The amendment was not considered to be a substantial alteration of the mark as the addition of a space between the words ‘TOP’ and ‘FLOW’ does not alter the meaning and pronunciation of the mark, and the visual impact of the amendment is low (05/08/2002, R 851/1999-2, TOPFLOW).

### Examples of unacceptable amendments (for formalities’ purposes)

<table>
<thead>
<tr>
<th>EUTM No 321 109</th>
<th>Proposed change</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mark filed as ‘RANIER’</td>
<td>‘RAINIER’</td>
</tr>
</tbody>
</table>

This change is not allowed as the correction shows the addition of another letter ‘I’, which would substantially change the mark as filed. ‘RANIER’ and ‘RAINIER’ are two different words.

<table>
<thead>
<tr>
<th>EUTM No 6 013 668</th>
<th>Proposed change</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mark filed as ‘ELECTROLITIC BOLUS’</td>
<td>‘ELECTROLITYC BOLUS’</td>
</tr>
</tbody>
</table>

This change is not allowed as the correct English spelling for this word is ‘ELECTROLYTIC’. Consequently, the mark as filed had one erroneous letter whilst the amendment proposal would have two erroneous letters. This would substantially alter the mark and therefore is unacceptable.
In the case of figurative elements, only elements of minor importance can be amended; this will be dealt with on a case-by-case basis. Giving a ‘fresh look’ to a figurative mark (which is a frequent practice in the industry in order to adapt the appearance of a figurative mark to current design and fashion trends from time to time) is not allowed.

The applicant filed a priority claim with the EUTM application, which showed that the first filing consisted of a single representation of the mark. In addition, the EUTM application contained a mark description that described the single representation and not the two images that had been filed. Therefore, the mistake was considered to be obvious. The amendment request was, however, rejected as the amendment would substantially change the mark from that which was filed.

Notwithstanding the aforementioned principles and examples, any alteration of the mark that would be allowable after registration will also be allowable in respect of an EUTM application.

Regarding alterations of a registered EUTM, please refer to the Guidelines, Part E, Register Operations, Section 1, Changes in a Registration.

16 Conversion

Articles 139(1) and 140(1) EUTMR
Article 22(f) EUTMIR

The applicant for an EUTM application or proprietor of a registered EUTM may request the conversion of its EUTM application or registered EUTM. For more information on conversion see the Guidelines, Part E, Register Operations, Section 2, Conversion.
