Jaga

# 15 000 DIGITISED BOOKS

Promotional [VIDEO](#) (2 min)

Co-funded by the  
Creative Europe Programme  
of the European Union

## EODOPEN project goals are

- 🕒 to make **15 000 textual materials** from the 20<sup>th</sup> and 21<sup>st</sup> centuries digitally available
- 🕒 to reach more than **1 million people** in Europe, particularly young people and those with special needs
- 🕒 to spread **best practice** in rights clearance among the professional community internationally

### ✓ **WG 5 Rights clearance assessment and support**

Legal insecurity is the strongest “innovation barrier” for making available 20<sup>th</sup> and 21<sup>st</sup> century cultural heritage. The vast majority of library staff feels very uncomfortable when clearing rights. Therefore, this working group aims at capacity building of library staff in terms of rights clearance. First, the WG will assess IPR and rights issues, especially focusing on the complex circumstances of digital access across borders. It will explore, in the context of the rapidly changing digital landscape, new developments, opportunities, challenges and solutions to existing rights issues.

Lead WG 5: National Library of Sweden in close cooperation with other project partners.

### ✓ **WG 6 Rights clearance documentation tool**

Rights clearance is a substantial part of the work to be carried out when digitising 20<sup>th</sup> and 21<sup>st</sup> century literary works. However, no uniform tool or IT infrastructure exists to support librarians in the important task of documentation of the rights clearance processes. These processes range from the documentation of the so called “diligent search” in case of orphan works or direct communication processes in case of agreements with authors or publishing houses to finally the back-and-forth communication in the process of supporting self-archiving deposits of researches at the own institution. This working group will aim at developing tool(s) to support library staff in duly documenting the search and communication processes.

Lead WG 6: National Széchényi Library of Hungary in close cooperation with other project partners.

## **Action plan of the Estonian Ministry of Culture “Digitization of Cultural Heritage 2018-2023”:**

- to make one third of the cultural heritage digitally available by 2023

### **We plan:**

- to upload about 10 000 individual works to the portal over the next two years;
- to prepare a list of about 3 000 book entries of Estonian scientific and educational literature from years 1900-1971

*Thank you!*
